

We have a number of projects on our platform, spanning tasks of all types, including AI chatbot training, text classification (sentiment analysis), content moderation, image classification, search evaluation, creative writing, data entry, and more.

To get started, you'll need to take this assessment. Just like an in-person interview, this is our first impression of you, and you want to ensure it's good. Take your time and give it the attention it deserves. Successfully completing this assessment unlocks the ability to participate in paid projects on the platform, so please be thorough in your work.

We expect this task to take a minimum 30 minutes to 1 hour and is required to get access to paid projects. If you pass, you'll be notified via email.

All responses must be written and researched by you from scratch. When writing explanations in your native language, please write in complete sentences, with no spelling or grammatical errors and be detailed in your responses. We are not looking for perfect English - it's perfectly fine if there are spelling or grammar mistakes.

Thank you for your application!

Do not use any AI tools (like ChatGPT) to generate answers for ANY part of this assessment. Using these resources is grounds for removal from the platform.

Given the following request to an AI chatbot, which response is more accurate? (Make sure to search using a search engine to verify that the factual claims in each...

☒ Response A

In **English**, please explain your answer In 2-3+ full sentences. List all inaccurate or unsupported factual claims (if any) in your explanation.

Response A is more accurate because it correctly identifies Olympus Mons as the largest volcano, its location on Mars, and the fact that Mars was more volcanically active early in its history. Response B includes inaccuracies: there's no evidence that Mars has moving tectonic plates like Earth causing plate collisions involved in Olympus Mons's formation, and no confirmed eruptions in modern times, especially none with recent VEI-8 activity.

Now, in **Telugu**, please explain your answer In 2-3+ full sentences. List all inaccurate or unsupported factual claims (if any) in your explanation.

సరైన సమాధానం ****Response A****. ఇది మార్స్పై ఉన్న అతి పెద్ద అగ్నిపర్వతం ****ఒలింపస్ మోన్స్**** అని సరిగా చెబుతుంది, అలాగే మార్స్పై రాతన కాలంలో ఎక్కువగా అగ్నిపర్వత చలనం ఉన్నదని చెప్పడం కూడా నిజమే. ****Response B**** లో అయితే కొన్ని తప్పులు ఉన్నాయి:

* మార్స్లో భూమిలా కదిలే ****టెక్టానిక్ ప్లేట్లు లేవు****, కాబట్టి "రెండు పెద్ద ప్లేట్లు ఢీకొని ఒలింపస్ మోన్స్ ఏర్పడింది" అనేది తప్పు.

* "గత శతాబ్దంలో ఐదు అగ్నిపర్వత విస్ఫోటనలు జరిగాయి, అవి VEI-8 స్థాయిలో ఉన్నాయి" అనేది కూడా శాస్త్రీయ ఆధారాలు లేని అసత్యం, ఎందుకంటే ఒలింపస్ మోన్స్లో ఇటీవల ఎలాంటి విస్ఫోటనాలు జరగలేదని పరిశోధనలు చెబుతున్నాయి.

Given the following request to an AI chatbot, which AI chatbot produces a better response?...

☒ Response A is a better response

In **English**, please explain your answer in 2-3+ sentences. (The more insightful and well-reasoned explanation you write, the better, since we prioritize high-quality writing.)

Response A is the better answer because it directly fulfills the prompt's request for a six-line **sad** poem about music. It uses evocative imagery—like "lonely heart," "haunting notes," and "painful whispers"—to convey emotional depth and melancholy, aligning with the tone and theme specified. The language is poetic and atmospheric, drawing the reader into a mood of sorrow shaped by music.

In contrast, Response B, while thoughtful, reads more like a general reflection on music's emotional power. It includes uplifting or neutral sentiments such as "make us laugh" and "help us sleep," which dilute the sadness the prompt calls for. Therefore, Response A is more thematically consistent and emotionally resonant.

Now, in **Telugu**, please explain your answer in 2-3+ sentences. (The more insightful and well-reasoned explanation you write, the better, since we prioritize high-quality ...)

Response A కవితా శైలిలో, భావప్రధానంగా, మరియు దుఃఖాన్ని సంగీతంతో అనుసంధానిస్తూ అద్భుతంగా స్పందించింది. Response B మంచి general reflection అయినా, prompt యొక్క భావానికి తగ్గదని చెప్పవచ్చు.

Please use the following prompt and responses to answer the next two questions:

Prompt

Write an email to my colleague Jamie letting her know I can't make our meeting today at 2pm. Make the body of the email 3 sentences. Make up a reasonable excuse for why I can't be at the meeting, and the entire email (including the greeting and signature) should be at least 30 words

Response

Dear Jamie,	Dear Jamie,
I can't attend the 3pm meeting today. I know we have a lot of important issues to discuss so let's reschedule.	I am sorry but I need to cancel our 2pm meeting. I have an urgent family matter to attend to. Let's figure out another time to meet.
Best regards, [Name]	Sincerely, [Name]

Did **RESPONSE B** follow the instructions it was given in the prompt (both explicit and implicit)?...

☒ No Issue(s)

In **English**, please provide a comment explaining your selections for both Response A and Response B. Understanding your thought process is an important part of this...

Response A → Major Issue(s). It fails to follow several explicit instructions: it changes the meeting time to 3pm instead of 2pm, the body only has 2 sentences instead of 3, and the total email is under 30 words. These are major deviations that make the response unhelpful.

Response B → No Issues. It correctly keeps the meeting time at 2pm, provides a reasonable excuse, has 3 sentences in the body, and the entire email is over 30 words. It fulfills all explicit and implicit requirements.

Response A → ప్రధాన సమస్యలు ఉన్నాయి. ఇది స్పష్టమైన సూచనలను అనుసరించలేదు: సమావేశ సమయాన్ని తప్పుగా 3pm గా మార్చింది, బాడీ లో 3 వాక్యాల బదులు కేవలం 2 వాక్యాలే ఉన్నాయి, అలాగే మొత్తం ఇమెయిల్ 30 పదాలకు తక్కువగా ఉంది. ఇవన్నీ ముఖ్యమైన లోపాలు.

Response B → ఏ సమస్యలు లేవు. ఇది సరైన సమయాన్ని (2pm) ఉంచింది, సరైన కారణాన్ని ఇచ్చింది, బాడీ లో 3 వాక్యాలు ఉన్నాయి, మొత్తం ఇమెయిల్ 30 పదాలకు పైగా ఉంది. అన్ని సూచనలను పూర్తిగా అనుసరించింది.
